

Entrega – Despliegue de Movie Reviews en EC2

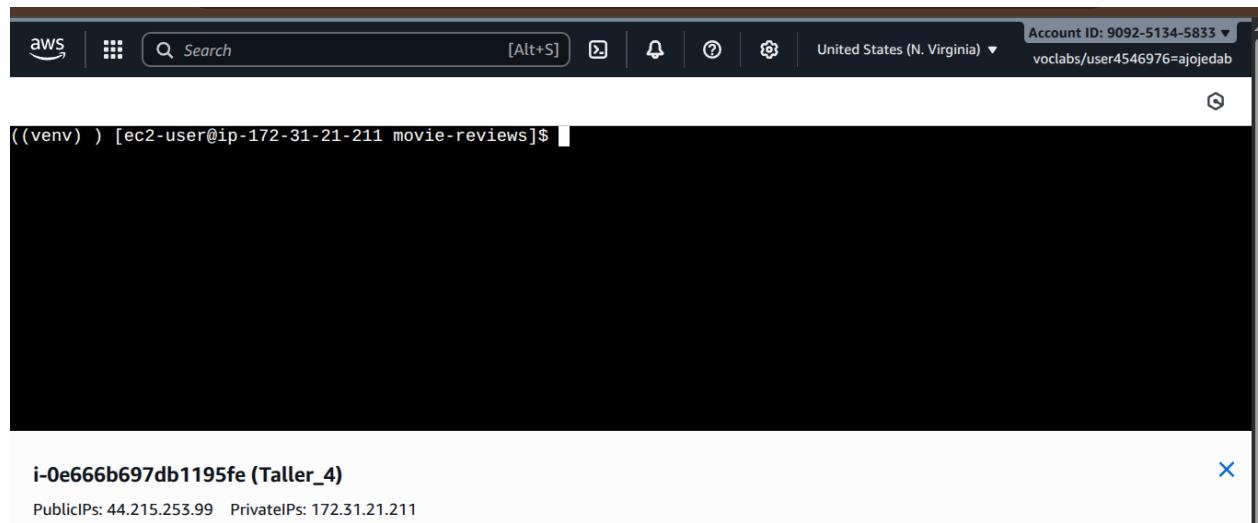

1. Enlace del proyecto en GitHub

Repositorio (HTTPS): <https://github.com/AdyuerHack/movie-reviews>

Repositorio (SSH): git@github.com:AdyuerHack/movie-reviews.git

2. Captura de EC2 (IP pública)

IP pública statica: 44.215.253.99

3. App en el navegador (misma IP)

The screenshot shows a web browser window with multiple tabs open. The active tab is titled "Movie Reviews" and has the URL "44.215.253.99/movies/". The page content is identical to the previous screenshot, displaying a list of movies: "Coco", "Dunkirk", "Forrest Gump", and "Gladiator". Each movie card includes a "Detalles" button.

This screenshot is nearly identical to the one above, showing the "Movie Reviews" application at the same IP address. The layout, movie titles ("Coco", "Dunkirk", "Forrest Gump", "Gladiator"), and the "Detalles" buttons are all present. The only difference is the timestamp at the bottom of each movie card, which has been updated to reflect a later time.

Anexo: Recomendador IA

The screenshot shows a web browser window with multiple tabs open at the top. The active tab is titled "Recomendador IA". The URL in the address bar is "44.215.253.99/recs/?q=amor". The page itself is a movie review site with a red header bar containing links for "Películas", "Noticias", "Recomendador", "Ingresar", and "Crear cuenta". Below the header, there's a search form with the word "amor" typed into it, and a red button labeled "Recomendar". A section titled "Resultados recomendados" displays a card for the movie "Titanic". The card includes a small thumbnail image of the movie, the title "Titanic" in bold, a brief description: "A bordo del lujoso RMS Titanic, el romance florece entre dos jóvenes de diferentes clases sociales: Jack y Rose. Su historia de amor se desarrolla en medio de la tragedia del", and a small blue box in the top right corner with the text "sim 0,274".
